

WELCOME TO PINE RIDGE DENTAL!

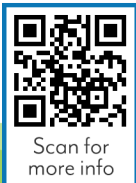

On behalf of our team, I welcome you to our office. We are pleased that you have made the first step to a healthier you. Thank you for selecting us to help care for your dental health. At all times you will be treated with the respect, dignity, and compassion you deserve.

We want you to know that we pride ourselves on making dentistry a pleasant (and even fun!) experience. We will listen to your needs and want and collect any diagnostic records you may need. We will discuss options and come up with a plan that fits your goals and helps you get the long-term results you want, all within the time frame and financial comfort zone you need.

Your questions and concerns are always welcome. If you wish, we will help you understand our process and make informed decisions about treatment options. It may not be where we start, but our goal for you is PREVENTION—controlling the process of tooth decay, gum disease, enamel wear, and jaw joint problems.

We look forward to working together to help you achieve your dental goals!

Dr. Jenny
